

Mp3 M/n/m/l - Another Round Thing With Music On It

[DOWNLOAD HERE](#)

experimental electronics, surreal, minimal, dreamlike. 9 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Experimental Details: classic experimental electronic music... hardcore minimalism with no artificial additives preservatives or sweeteners, performed on a Serge Modular. sophisticated, tasty, earthy, not crude, half-baked or overly academic. this is music I would buy if there was more like it. this stuff is hard to find, hard to do. I do it so there's more to go around. no conventional tunings, scales or notes are used. instead the shape of the music is driven by textures found on the synthesizer after hours or days of hunting. each texture is a new instrument that's practiced and recorded with care. a good day is when I can get several textures working together. the work follows its own course and takes its own time, either hours or months per track, and one or two years for a CD. when the track or texture is finished it is torn down and forgotten, released with thanks to the odd numbered dimensions from whence it came. this m/n/m/l CD features such megahits as 'Whirligig', fearlessly and unapologetically chock full of savage beat, howling wind and flying sparks. 'You' takes you on the twisting turning Mobius Trip of the mind's eye. 'making sure the ducks are all asleep' might just scare the poop out of you, so tread carefully and remember to change your underpants. thanks for visiting. ** please note: 10 of my sales go to humanitarian causes **
