Reggae to rhyme and fat horn lines, urban ethnic folk world poetry to music. 13 MP3 Songs URBAN/R&B: Contemporary urban, WORLD: World Fusion Details: NARHED is the first brainchild of DEHRAN DUCKWORTH, independent producer/artist, and born and fed in Brooklyn NY and conceived over at least half a decade in various corners of the earth. With the help of bass/guitar player and engineer FRANCKY MOULET (Tony Allen, Manu Dibango) OUT ON A ROCK has emerged as one of the first of its kind for the 21st century blending genre and flavor to present an auditory kaleidoscope of poetry and beats, fat horn and bass lines, and classic carooning soliloquies. Inside you'll find enough diversity to classify it how you want, or not. Enough to say it's a kind of world blend that could find itself in a few different aisles and stand up straight in any one of them. OUT ON A ROCK is confused but not lost, a comprehensive collection of worldly music mercenaries put to the test of translating Dehran Duckworth's musical mumblings in RELIEF RECORDS NYC's very own livingroom, its a home production on steroids mixed at MERCREDI 9 studios in Paris by FRANCKY MOULET and FRED CARRAYOL and mastered by WILL QUINELL at STERLING SOUND in New York. Check out the NARHED CD release party if you are in New York at Joes pub on March 29th, or the Animal New York Armageddon issue release party at Tribute New York April 15th!
