Details: I have been playing guitar and writing music since age 11. Throughout all those years I have done everything from jazz fusion to pop to covers to country; also children's music, award-winning film scores (IMDb.com: "DV8") to my most recent credit which is "Voodoo Crossing: A Tribute to Jimi Hendrix" CD with Larry Coryell, issued from cometrecords.com. This CD features my Pop-tunes-that shoulda-been-hits. They're all very groove-oriented with powerful drums and there's some cool ballads as well. Thanks! Pauly
