You know, the game where you dance around like an idiot while your mates giggle and point in hilarity. Well, now Super X brings you the worlds first interactive music for sex. Simply throw it on and thrust to be the beat with your partner, taking note of special position sound markers to climax at the conclusion of each track. Blending influences from neoclassical guitar rock, to synth pop and electronica, your pulse wont be the only thing racing as you bump, bounce and boogie through each track. Beware, though, as you progress through the album each song gets increasingly more difficult in tempo and beat complexity. The progressive, rhythmic nature of the album makes it perfect for working through sexual stamina and PE problems, and as they say, practice makes perfect!
