AWARD WINNER 2001 "It's like having a Mommy and Me music class in your own home." - MOM from

CA "My 19 month old daughter goes completely crazy over the "Wiggle" disc. She loves it." - Jamie

Smith, CO Review: "Colorado music teacher and songwriter Sue Schnitzer has put together an album of

19 traditional and four original songs. The album is based on her live music programs for infants and

children through age eight in which she encourages her audience to sing along, jump, dance, twirl, stamp

their feet, clap their hands, and have fun. The vocals and instrumentals are excellent. A chorus of children

sings along on almost every song." - School Library Journal, July 2001.
