Details: In Nov. 2008, a spontaneous duo drawing together two separate worlds of discipline was formed. Kelly, a pop recording artist with a host of pretty, melodic, and catchy songs; Sean, an improvising/composing artist known for jarring counterpoint and psychedelic sound-scapes. Our combined sound emerges from compatible intentions, seeking sacred music, love, a tone that speaks universally. As it evolves, we are breaching borders from high energy dance-electronica to soothing, soft melody. To the recordings, Kelly brings her lovely voice and for the simple, catchy song while Sean brings his knowledge of arrangement and harmony.
