Blogging Made Fun And Easy Using The Brand New Blogging Power Package Software! From the desk of: Your Name Last summer, the blogging scene really exploded. Yes, blogging has been around for several years now, but it didnt really HIT until last summer. I had heard of blogging but thought it to be just another way for newbies to make sites about their lives. I figured I didnt have the time to start an online biography, so I didnt give blogging a second thought. I started seeing more and more about blogging, and started to investigate a little more. I saw some great things people were doing with blogging, and some of them were even making money by blogging. The more I read up on it, the more I saw there was a lot more to it than just a bunch of newbies making sites about their lives. It was a powerful concept that was sweeping the net. I knew that if I didnt get in quick, that Id miss the ride. After reading and readying, I just felt overwhelmed. I didnt know which way to go because there seemed like there was way too much to learn. Again, I decided not to go any further in blogging. It wasnt until my competition started asking me what my blog url was and me repeatedly having to tell them I didnt have one. The looks on their faces told me everything. I was an idiot for not taking advantage of what blogging

could do for my business. So, where's your blog at? YOU don't have one? Don't panic.
