Mike said a few words that made such a tremendous impact on our lives that it literally changed our plans for the next 18 months! All it took was a few words and it made all the difference! Imagine this: If a few words can make such a huge impact, imagine what an entire audio session would do for you? Mike doesn't tell you stuff like: * How to build a website * How to edit HTML * How to start a blog * Etc etc.. You get the drift - this isn't about the technical aspects of building an online business. It's about something altogether much more critical for your success. We didn't want to get a chance to speak to a millionaire and ask him such silly questions, to which you can find the answers easily on Google... We wanted to ask him the really IMPORTANT questions. We wanted to know how he turned his life around from being stuck in a dead-end job as a sales manager, to how he managed to stay on course while building his online empire... It's stuff like that, guys, that you can find anywhere else..
