Forum Assistant Pro Who Else Wants To Own A Brand Spankin New, Never Before Released Software Application That You Will Use Everyday With Internet Marketing To Pull In Tons Of Info And Cash Online FOREVER? Act Today To Secure One Of 100 Reseller Licenses.....These Are Going To Go FAST! Forum Assistant Pro fessional is going to be one of this years best selling software applications because of all its online capabilities, but even more pratical for professional and novice Internet Marketers because it can be directly applied to online marketing. Plus weve had it beefed up with professional Eye Candy (the graphics used in designing the software its self) to make it unlike any software on the market today. With Forum Assistant Pro , all you do is type in ONCE the forum URLs and then when you want to post a question or advertise your products and opt-in pages, you type it in, hit enter, and BAM! Youve got your qustion posting automatically in all of the forums that youve entered into the software! Its almost like an autoresponder for forums! If you have ever tried a grassroots campaign to market your website, product or service through online message boards, you know that it can be a great way to generate traffic and sales. There are lots of benefits: its free, you are communicating directly with your potential customers, and it creates hundreds of sites that are linking to you, which then show up in search engines as well. It

has its downsides too: being accused of spamming, trying to keep up with responses to your messages, and having to deal with all sorts of different message formats. Thankfully, this software will fix all those problems and allow you to deliver highly effective campaigns quickly and easily. THE BENEFITS (what you get with this software) * Save and load different messages! * Automatically insert your message into posting pages with one click! * Automatically format your message into Text, HTML, UBB Code, or EZCode! * Create your own formatting templates for other messageboards! * Bookmark your posts and automatically check them for replies!
