A work that fuses classical electronic textures, hypnotic sequences, aggressive guitars in a rich emotive experience 7 MP3 Songs in this album (30:40) ! Related styles: ELECTRONIC: Soundscapes, NEW AGE: Progressive Electronic People who are interested in Mike Oldfield Tangerine Dream Klaus Schulze should consider this download. Details: This is my best release so far. I wanted to create a work that uses the classical electronic music language, with its evolving textures and hypnotic sequences, together with strong guitar melodic lead lines and a more progressive approach to the composition. Argento is a work in six parts, and all of them related: each one develops the preceding parts, introducing new elements in terms of musical development and arrangements, until part VI that closes the circle. I recovered the sounds that I love, such as mellotron and classic moog bass/ARP lines, to better get that classic electronic music feel, siding with more contemporary sound textures. I like the results, and I hope that you also will enjoy this work, Stay tuned, Alessandro
