Spanish Hip-Hop Like you have never heard before. 14 MP3 Songs LATIN: Latin Rap, HIP HOP/RAP: East Coast Details: Alfa started in 1999, with his first independent demo that didn't have much distribution. But it did have high expectations because of its unique style that was present in Argentina at the time. Without letting time pass he was called to do a compilation of "Nation Hip-Hop II". As he continued only a few concerts were done but it was left half way since Alfa decided to immigrate to the United States. He was looking for a better perspective after passing obstacles and situations. In 2003 was the year that Alfa was able to return to the stages and start to work on his artistic career again. Upon his three year absences he returned to SOB's in New York to the Latin Hip-Hop Conexion.
