East of Ragtime, West of Goth, Somewhere between the Carnival and the Cabaret 6 MP3 Songs POP: Piano, ROCK: Goth Details: Ms. Lovell's second release, *Six Sadistic Songs for Children*, is a collection of death trailing from Nebraska to Oregon. These dark, little songs range from the murder of two Co-Eds to the vehicular homicide of a beloved pet, from the cold operating room table to the fiery re-entry of a Communist-Russia-era hero, from the finality of a funeral to the immortality of pure evil. The *Six Sadistic Songs for Children* were exorcised from Ms. Lovell's soul in an attempt to invite more love, joy, and happiness into her heart... it didn't work.
