An amazing lyricist, Aqword is definitely ahead of the game. His debut album 100 PRODUCT, is presented to the hip-hop community as a breath of fresh air. By the end of the first song, it's quite obvious that Aqword is destined to be a permanent fixture in the music industry. When the smoke clears and silence fills your ears, one thing is for sure; you will feel Aqword. His first single, "Fiesta de la Noche" featuring label-mate Int'lekt, is an instant summertime classic. With catchy tracks like: "Get Wet", "Fly by Night" and "AQwho?", to more intense tracks: "Leap", "Fire in da O", "Hello Industry" and "Things 2 Me", Aqword gives meaning to his albums title 100 PRODUCT. DJ Joker, CEO of Melted Wax Productions and executive producer of 100 PRODUCT, says, This album has something for everyone Aqword has created a collection of material that proves his versatility. With distribution, endorsements, regional tours and a video in the works, Aqword is one hundred percent business. Born and raised in Tulsa, Oklahoma, a place traditionally known for its heritage in country, jazz, soul, and rock music; Aqword was influenced by many genres at an early age. His first musical experience was in middle school as a guitarist and lead singer of a garage band, which broke up quicker than they formed. Not until high school did he find his love for hip-hop music. Early influences include: Busta Rhymes, Dr. Dre, and Outkast. It wasn't long before Aqword found his abilities in hip-hop, through freestyle rhyming/ciphering with friends, just to see the look on their faces. As time went on, college seemed to be the only route for the young emcee until one day in the fall of 2001; he received a phone call from DJ Joker, whom as fate would have it, is also Aqword's cousin. Two trips to New York, recording songs and freestyles at Unique Recordings in Times Square was all it took to

convince DJ Joker that Aqword had a certain star-like swagger on the mic. In 2004, Melted Wax Productions relocated to Tulsa, Oklahoma and now is the most official music production studio in the state. With a unique sound, fresh faces and an endless supply of product, Melted Wax and Aqword are taking the industry to a higher level.
