Eclectic song based pop rock with a hint of blues angst and dance beats 11 MP3 Songs POP: British Pop, ELECTRONIC: Pop Crossover Details: After a 3 year absence, Big Boot Dance are back with their unique brand of Eclectronica (do you see what we did there?). Inspired by critical acclaim for their debut EP Tich is God from reviewer Corey Swets........ ***** CANT STOP LISTENING TO THIS CD - One of the most enjoyable consistent electronic rock albums I've heard. The only bad thing I could ever say about it is that it's only 6 tracks...The band obviously has a lot of skill, and well enough production to show it. This CD is a must have for those who love anything from pop to electronic to rock to even reggae! ....Big Boot Dance have built on this solid biscuit base and added layer upon layer of mouth-watering confectionary anthems. 2 tracks have been sweetened, 3 remain pure and 6 new songs have been added to the original recipe to produce a full blown 11 track, 55 minute sonic pick n mix of a CD. The 3 missing years have been turbulent times for BBD. Founder member, Dickie Tumm has left the band after a disagreement in direction. His desire to take the band down a savoury road caused grave concerns for the rest of the band who wanted to remain faithful to their pure chocolate crunchy coated roots. Those concerns were compounded when Tumm was spotted in a club leaving a toilet cubicle with cracker crumbs around his mouth. His exposure by the tabloid press meant his position in the band became untenable and he was dismissed. Ex-Slapclap Boombeat frontman, Jamie Dodger, was approached as a replacement and joined the band in the summer of 2005. Cake University dropout Coco McArune joined later the same year and has added a smooth and creamy new dimension to BBDs output in the wind department. We hope you enjoy this new offering Tune in. Turn on. Have a biscuit. Note: IF YOU CAN'T WAIT YOU CAN DOWNLOAD THESE SONGS ON iTUNES.
