Cleverly crafted, meaningful lyrics are magically combined with the delightfully enchanting melodies. All songs are purposely performed to stimulate the child, by a combination of Male, Female or Childrens voices, to best relay the message that is being taught. This CD has been trialed in many Kindergartens, Child Care Centers and Dance Schools with outstanding success. Teachers and Parents have commented on the sheer brilliance of the idea: - A scripted dance class (with instructions), set to beautifully written tracks, and led by two loveable personalities: An educational and recreational resource for parents and teachers never before seen in the market.
