Artist Description: Elprocomm Revue is an aggregate of 4 artists (virtual band Savory Cool, female artists Gina Brothers and Cynthia Bowen, and male vocalist Curtis Butler) Cynthia Bowen has a mature, versatile voice that just tugs at the heart. Whether she's singing smooth R&B, country, pop, jazz, Latin - you name it - she will take you away on a real musical experience you won't forget. Gina Brothers can run the gamut from mellow to zesty to outright sassy. In other words, whatever it takes to convey the right feeling in a song, she has it. She has been described as having a voice crossing between Anita Baker, Dionne Warwick, and Aretha. Then there is our virtual band, Savory Cool. When the wife of the creator of Elprocomm Revue heard some tracks by this "group", she was moved to describe its ambience as both savory and cool. Finally, Curtis Butler - a member of Songwriters Guild of America and affiliated with BMI - brings backbone to the revue with his contribution of being its producer and primary songwriter. To date, he has contributed about 80 copyrighted songs to the repertoire of Elprocomm Revue. Curtis is Elprocomm Revue's only male vocalist. His voice has a soft touch to it just right for the love ballads he sings, whether singing in his natural tenor-baritone range or falsetto Between the 4 artists, Elprocomm features a variety of musical styles, including R&B, soul, pop, jazz, fusion, rock, country, etc. So, when you think of Elprocomm Revue, picture a conglomerate of artistic styles of great variety. While we have our own Web site at el-procommunications.com/Songs/elprocomm_artists.htm, we are also featured on sites such as DMusic.com, ArtistLaunch.com, AltSounds.com, and SoundClick.com. Feel free to check us out at all these and enjoy. You might say that our basic motto is "Good sounding music is good sounding

music - regardless of the time". That is, we love to put out music that just sounds good, without worrying about fads. If the harmonies and melodies from our music linger around in your head and heart long after you shut down your CD player, we have accomplished our goal.
