Funk Jazz 12 MP3 Songs ELECTRONIC: Funk, JAZZ: Free Jazz Details: Everett Draper , guitarist, music arranger. I love all types of music. I have spent the last eight years playing gospel music in Toledo, Ohio area churches. I have jammed with some of Toledo's best Blues, Gospel and Rock musicians.. Those sessions earned me the respect as one of their peers. The Matrix Soul album/disc is a first for me . I have shared some songs with fellow musicians and family in the past. I would like to see more young children learn to play the guitar. The funk and blues guitar is going to be lost with the use of sampling and computers. After a hard days work, I the Matrix Soul Man puts this disc in and it brings me relaxation. These crazy guitar sounds that I though only my family and I would hear is starting to be heard all over the country. Everyone is welcome to come into the Matrix Soul. It's totally up to you where it takes you. Let the Matrix Soul run free in your universe
