comedy country 9 MP3 Songs COUNTRY: Modern Country, GOSPEL: Country Gospel Details: Hi, my name is George Beeler, the singing UPS guy. I'm 44 years old and have worked for UPS for almost 25 years. I am a drummer by trade and have been playing for over 25 years. During this time, I played for the Kingdom Heirs in the early 80's for a couple of years and then for a local church for approximately 10 years. I've always enjoyed writing and singing, so I would sing my songs on the C.B. to other truck drivers to get a response. Some gave me a hard time and told me to shut up, but others would tell me to keep singing. So, here I am still singing! After 10 years of playing around with writing, I finally decided to get serious and do my first project. I was really nervous since I've never done professional singing. But, I took nine (9) of my songs and rounded up some friends and - as Jackie Gleason would say, "and away we go"! Now, all you big gals gather around and listen to the "Fat Woman" song and see how your men appreciate and love you. Thanks for taking the time to listen to my tunes. Let me know how you feel about them!! George Beeler The UPS Guy
