Elegant lite orchestral arrangements with incredibly passionate vocals bring 11 original songs from the heart and mind of love. 11 MP3 Songs EASY LISTENING: Love Songs, CLASSICAL: Contemporary Details: Glen River, composer, novelist, short-story writer, poet, visual artist, movie maker and creator of Zen Process DYNAMICA, was born in Washington D.C. He was first published as a singer/songwriter. His poetry was published soon after that. His visual art has been exhibited internationally. River continues to be profoundly interested in the primitive subconscious and stories about reunification with nature. Tremendously prolific, Rivers work decidedly tends to pursue a more independent path. Zen Process is the transcendent consciousness his art achieves. River explains it this way " It is like Zen Archery... art is the bow. The music, the painting, the poetry, the books, the movies, and DYNAMICA, they are all the arrows. The eye, the mind, the heart and the bow they are all Zen Process."
