

Mp3 Lower Than Lo-fi, But Higher - No Need For Ladders

[DOWNLOAD HERE](#)

Indie-pop minimalism 8 MP3 Songs in this album (28:22) ! Related styles: FOLK: Modern Folk, ROCK: Lo-Fi People who are interested in Yo La Tengo should consider this download. Details: Lower than lo-fi, but higher is Christian Stouff from Now We've Got Members. Leaving his bass in favour of a four string guitar he slides through the lo-fi landscape and beyond. He is the only artist in Metronomicon Audio that could be called a pop-minimalist, and except for his four strings and voice, the only sounds used to enhance his songs are occasional drums, violin and reeds. His lyrical songs are melancholy miniatures; a very honest and pleasurable listening experience.
