Clever and thoughtful electro pop infused with indie rock. 12 MP3 Songs in this album (48:43) ! Related styles: POP: Quirky, ELECTRONIC: Pop Crossover People who are interested in The Postal Service Regina Spektor should consider this download. Details: EGBDF is the vision of Opanoni, (AKA Sydney singer/songwriter/multi instrumentalist Radi Safi), brought to life with the help of the Raindrops, (AKA random musos who play on the record). The result is a cute collection of indi pop songs that work their charm deeper with each listen. Recorded at Safis home studio, this is the full length follow up to 2004s quirky EP Stamps and Coins. There is an innocent quality to the music, captured in the raw harmonies and tinkling piano that weaves its way in and out of the album. Listening to EGBF, complete with its references to Astro Boy, Twinkle Twinkle Little Star and Three Little Ducks, will transport you back to a carefree childhood where the days were spent chasing butterflies in the sun. The songs are laced with xylophones, hand claps, shakers and bells. This is the music your primary school music teacher dreamt you would make on those plastic instruments during weekly class orchestra sessions. Opanoni and his Raindrops have achieved a stunning blend of electronic experimentation, wispy vocals and pretty melodies. Despite the heavy electronic elements, EGBDF still feels organic and real. The songs are catchy, but not annoyingly so. Opanonis voice has an open and gentle tone that floats above the subtle-psychedelic sounds and entrancing rhythms, sometimes deceiving the darker lyrics that lie underneath the sweet sounds. EGBDF is mellow in parts, particularly on the hypnotic Paperclip Iris and the beautiful Clockwork Radio. The combination of throbbing electro-effects and child reciting Twinkle Twinkle will pulsate its way into your subconscious. Other tracks such as Lightning Strikes, with its acoustic guitar and upright bass carry more of a rootsy feel and inspire some serious toe tapping. Just like the lyrics say every now and then lightning strikes, it strikes hard but it strikes right, EGBF is a little

gem that strikes all the right chords. Opanonis own motto is that theres absolutely no point releasing an album that sounds like your last, or anybody elses. He has stayed true to his word on EGBDF, creating an album that is beautiful and unique. Opanoni is a breath of fresh air, a true Australian talent.
