Traditional country music that reflects back on life's loves heartaches and old times gone by. 15 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Bluegrass Details: When I was just a very young child, I used to listen to the old radio and all the country songs .When no music was on the radio, we had special nights when our favorite radio shows was on. Namely, Our Miss Brooks, Amos and Andy, Baby Snooks, The shadow, The Great Gildersleeve THE LONE RANGER just to name a few. Those were the good old days. Today the Old Home Place has been torn down and all that is left is the memories of those years when it was safe to go to town at a young age to the movies without any fear of being in harms way. I didn't have the chance to get a high school education because of not having a home like so many others had, Our parents divorced when i was 6 years old and from then on it was the children's home and then from home to home with whoever would take us in for the money they got from the state. I can say that only one family was ever what you can call good to us. When i was in the 3rd grade my mother re-married and got us back home again . Life was a little better then ,but not all it should have been...and I ended up having to quit school at 16 and find work and a place to live on my own. Up until I enlisted in the service, I played in some local bars and a few out of town places. I was never seen in town that I didn't have my d-28 martin guitar with me. All I thought of or dreamed of was being a country music singer/writer.even if I never made the big time, writing about my life and times and songs about others loves and lost loves...the feelings of heartbreak I guess is what I can write about most, my life from an early age...Even today,many memories are still there to remind me of those days when it was ONE day at a time to exist. The songs I have written on this cd has it's own time and moment in my life and I am shure many of you folks can say that some of these songs can pretty well describe a time in your life also. The good times, sad times ,the memories. One of my favorites is how I felt when our old home place was

torn down. (THEY'RE TEARING DOWN THE OLD HOME PLACE)... HARD ROAD TO NASHVILLE is one about how my career and chance for nashville was cut short in 1963 I wrote Tribute To Daddy, a true song when I learned a friend of mine lost his brother in the war and had a wife and little girl....I have my little 11 yr' old cousin singing the song on my cd, and she has done a wonderful job ...her name is SHAENA, and I am shure you will hear more of her in the near future. THE WEDDING VOWS song I dedicated to Heidi Newfield (TRICK PONY) and her husband Bill. JUNE 6,2004. I wish them many happy years together. I could go on and on about all I have done and been thru..but not enough time to write a book ..... These current songs can be purchased one at a time on several digital download sites. For info on downloading one or more songs from this cd, e-mail me and I will give you the sites this cd is available on . (((((I am looking for a female singer to record some original songs I have written. If interested, e-mail me for sample mp3,s of the songs.)))) R.CARTERBLUE (BLUESTAR)
