ATLTANTAs #1 Summer Hit "WOULD U SAY U LOVE ME" featuring Atlanta's Best Kept Secret-PSYCHE ORIGAMI... 13 MP3 Songs HIP HOP/RAP: Hip Hop, JAZZ: Acid Jazz Details: 'A HIP HOP CLASSIC' Shudoshi delivers a quality effort and as many have already said it's not a straight ahead hip-hop production. Left-field leanings towards Jazz, Hip-Hop and Mellow vibes (with Shudoshi off the wall mixes) produce good music period however and the Princely joints "Meteorites" "Killing Nature" and "Human Beings?" are some highlights. Shudoshi is one of the most gifted producers out there who can hold his own against some of the established BIG names (wont say any) of the industry. Shudoshi a practitioner of off the wall ORIGINAL tracks rather than the bland un-inspired top 100 material you hear over and over and OVER on your radio and TV sets. Shudoshi gains even more cool points with the the HEAVY Asian flavored beats, flow and melodies. Shudoshi has really developed his own sound and promises to be something refreshing and unique.
