THE RAW DAWG Biographical Sketch Chemmis Porter, known to his fans as Smoke Dogg, is no stranger to the hip hop music culture. This New Orleans native recognized the ability of his voice to excite others and decided to rapping and making music as a hobby at the age of 10. Encouragement from his peers, and his love for making the crowd move brought Smoke to various performance arenas in New Orleans, and Baton Rouge, LA. His energy has been requested in talent shows as a featured guest, fashion shows, and block parties. Gaining popularity in public venues introduced Smoke to studio on various projects, including working in Kane Able's Most Wanted Studios. After 3 years in Atlanta, GA where he now resides, Smoke has become active on the under ground music scene. He can be caught Friday Nights on Hot 107.9 from 6-10pm free styling with COCO Brotha the Home team, or in Open Mic sessions at the local clubs, and college campuses, and music seminars. He just recorded his first underground album, " The Raw Dawg " which includes 17 banging tracks all written and produced by Smoke available at cdbaby, and to add to his accomplishments Smoke has just produced Mr. Doe'ja 's album "Gumbo Funk" which is hip hop, and a gospel album called " You Gotta Start Somewhere" by Quee. From his works you can clearly see that Smoke stays busy on the music scene whether it's Hip Hop, R&B, Gospel, or Pop he's on it for the love of music. Although, compared to artist like Andre 3000, and Big Boi of Outkast, Snoop Dogg, and Bone Thugs in Harmony-Smoke brings his own special flavor to the Hip Hop scene. He is noted for his ability of leaving hip hop listeners with remarkable phrases and tongues twisters, like "Life is what you make it, So I'm tryna build a legacy, and

ignore all the hating, I can't be waitin, If I want it, I gotta go out in get it, With no pro-crastination!" His goal is to bring the music world a unique style based on his creativity and Southern background. Ultimately Smoke wants to expose his talent to the world by signing with a Major Recording Label. To add to the struggle of Smoke Dogg's life he's a Hurrican Katrina victum that lost everything and had to sleep at the New Orleans Convention Center for 4 nights.
