14 MP3 Songs POP: New Wave, ELECTRONIC: Pop Crossover Details: ETOC -- 'Erotic Temptation of Creation'... Synth-pop straight outta early rave culture (think: fruity pacifiers and strange hats). Or, Blip-pop straight outta factory automation (think: post-apocalyptic Tokyo semiconductor production). Or, Electro-clash straight outta the current age of Instant Nostalgia (think "holymoly has it really been fifteen years since..."). Or, Existentialism straight outta... um... well... (think: brooding Parisian philosophers playing with Transformers ["Robots in disguise!"]). Or, All of the above. Or, None of the above. Whatever. Regardless, have fun.
