Emotive pop with a girlie singing about new found love. 10 MP3 Songs POP: with Live-band Production, ROCK: Emo Details: Sunfall Festival returns with their fifth album. Bang Bang Bang features three songs produced by Paul Fox, who has produced albums by 10,000 Maniacs, Grant Lee Buffalo, Sixpence None The Richer and Victoria Williams. The growth in the bands songwriting is highlighted in the title track as well as other stand out tracks - Choose to Be and Trilobite. Unlike previous albums, "Bang Bang Bang" highlights a raw, less-polished sound that incites energy in the music, although the style is still unmistakably Sunfall Festival. - Amber Webb, Daily Universe On "Bang Bang Bang," Sunfall Festival's follow-up to the well received "Monday 23," the band continues to impress with their cohesive sound and literate lyrics. - Andrew Griffin, The Town Talk "I am very rapidly falling head over heels for this band. First impressions were I had been recommended and so discovered a missing Sundays album - but they are now much more than that to me. Still learning their songs so can't say which are my faves yet, but that learning experience is a total joy! Thanks for the introduction!" - Dave M., Auralgasms
