

# Mp3 The Foxy Foxes - Milwaukee's Only Hitmakers Ep

[DOWNLOAD HERE](#)

Iggy Pop and Batman throw a party on a spaceship orbiting Venus and only communion wine and glittery stuff is on the menu. The dance floor is a galactic mile long. Bring your inhibitions, toss them into a pile and burn them back to ashes. 8 MP3 Songs in this album (28:18) ! Related styles: POP: Power Pop, ROCK: Glam People who are interested in Muse The Hives Fall Out Boy should consider this download. Details: Milwaukee's Only Hitmakers, the Foxy Foxes. A debut EP forged in the UW college scene. Armed with the building blocks of any good Foxes song: booty shakin beats, guitars so crunchy they don't go soft even in milk and a lot of oohs aahs nahs and las. And fully prepared to rage all over any dance floor that dares play with fire and invite them. Shouting a hearty Nay! when expected to pick a cubicle in which to spend the next forty years, the Foxes have begun a heroic attempt to break through the vacuum of the drudgery of other Midwestern rock and roll bands. People the nation over have been slain in the wake of their party and the body count will only rise from here. The Foxes are sentient beings, sure, but are not capable of judgment and only wish to rock out with anyone and everyone.
