Details: "A man of the world," said Berlin's Zitty magazine of Thomas Channell and citizens of the world are going to love THE SEDUCTION OF THOMAS CHANNELL, the highly anticipated second album by this South African singer-songwriter. Seduced by life in New York City, Berlin and Cape Town, Channell has created an album featuring such fan favourites as the startling Shooting Star, the sublime Florentino Ariza and the ridiculous Bacon. Packed full with 12 tracks that are as diverse as the passengers on a New York City subway car, the album exquisitely showcases Channells idiosyncratic style as well as his unique talent for melody with a touch of musical theatre. At last, here is a studio recording of what audiences at performances in Berlin, New York and South Africa have been treated to for years: haunting vocals, lyrics that read like a Vonnegut novel, fiery piano playing and slightly offbeat harmonies. Reminiscent of Ben Folds, Billy Joel, Tori Amos and Rufus Wainwright, Thomas Channell proudly follows in the footsteps of these masters of song and piano. The album was recorded in the heart of Berlins trendy Prenzlauer Berg area with producer Jrg Surrey and features the best of the Berlin music scene in Olive Christou (tiger hifi) on backing vocals, Thorsten Lastinger (Joachim Deutschland) on bass, Andre Wenzlitschke (Jasmin Weber) on drums, Anthony Thet on guitars, Per Hauber on saxophone, and Anjolie Nock on cello. Born in Sydney, Australia, Channell spent his youth in South Africa, then ripened as a songwriter and performer

in New York, where he has played at venues like the legendary CBGB, The Living Room, The Bitter End, Cornelia Street Caf, The Knitting Factory, Caffè Vivaldi and Mo Pitkin's House of Satisfaction. In Berlin he has taken the stage at WABE, Kunstfabrik Schlot and Junction Bar. He has also performed all over his native South Africa. THE SEDUCTION OF THOMAS CHANNELL is the follow-up to his debut album CROWDED SUNRISE, which was released to critical acclaim in 2004. The new tracks were born on the streets of Harlem after a thunderstorm, in a small apartment in Queens, in a caf in Berlin, and in a jungle in Mexico. Inspiration came from the pages of a secondhand copy of LOVE IN THE TIME OF CHOLERA, a drive home in a 1982 yellow Volkswagen Jetta on a rainy Cape Town night, and waking up to the smell of fried bacon every morning for one whole year on Riverside Drive, NYC. With its honesty, intimacy, simplicity in expression and good dose of tongue-in-cheek humour, THE SEDUCTION OF THOMAS CHANNELL is an indispensable addition to every good record collection in 2009. SEDUCTION is much more than an album," Channell says. "Its a musical diary of four years of my life. Its a non-immigrant visa to join me on a journey through the places, streets, stories and people that have shaped the skyline of my world. The album is available on iTunes, CDBaby and all good online music stores, and at live shows.
