A passionate experience in contemporary christian music that will stir your soul. 15 MP3 Songs GOSPEL: Contemporary Gospel, EASY LISTENING: Soft Rock Details: Tony Randall Wann, born and raised a native of south Florida. Raised in a multicultural community with many musical influences ranging from latin rythms to rock, jazz, blues, and even flamenco guitar. As a child, he always demonstrated a talent for music, but it was more than a talent, there was a noticeable passion for music at a very early age. His mother, a wonderful classical pianist, no doubt had played a vital part in the understanding and appreciation of the art of music. However, he felt there was something missing in his ability to be able to express himself on the piano like he wanted. Then he picked up an old acoustic flat top guitar one day, and the rest is history. Listen to what Tony had to say in his own words, and the genesis of his music which led him to this unexpected adventure in his life. I really am not much for words, I find it difficult to accept compliments of my music, and I truly am my own worst critic. I will not bore you of my life stories and I will not lift up or edify myself in any way, that's not what my music is about. My music is simply a stepping stone to allow me the platform to deliver the purist, the most soul penetrating message that mankind can hear, and that is the message of Jesus Christ. I believe there is one God, one sacrifice, one death, one resurrection, and one truth. Find your true peace and freedom in Christ Jesus today. If you purchase a cd, I pray a tiny seed of faith and hope is planted in your soul and you feel the peace that only Christ Jesus can offer.
