Groundbreaking learning tool for our youth, fusing basic grade school lessons with authentic hip-hop music that will enhance their scholastic development while fostering enjoyment and creativity. Expanding Young Minds. 12 MP3 Songs KIDS/FAMILY: General Children's Music, HIP HOP/RAP: Hip Hop Details: About Us Next Generation IQ (NGIQ.COM) was founded in 2003 by two hip-hop producers who envisioned hip-hop music as an effective and fun tool for educating children of all ages in basic skills they will need their whole lives. They were joined in their vision by a select group of professional individuals from the world of education, science, law and finance. They also dreamed of providing resources and products to our youth that would enhance their intellectual development while at the same time fostering enjoyment and creativity. NGIQ.COM is proud to present the first in its line of groundbreaking learning tools-The Numbers Game, VOL. I for youths age five +. This innovative tool removes the agony and anxiety from the learning of an essential skill and replaces it with enjoyment and confidence utilizing a method understood by today's youth, Hip-Hop. The Numbers Game, VOL. I, unlike any other product on the market, teaches Multiplication and its relationship to Division in the same lesson. Visit us @ ngiq.com
