Create your own Amazon store(s) in English, German and French. Maximize your Google AdSense commissions from the English, German and French-speaking markets. Increase your affiliate commissions from any affiliate program through top and bottom ad space/banners. And A Lot More! You can search any category by keyword(s) and retrieve keyword-related products of your choice from that category. For example, you might have a website about electronics. So, you would display products from the "Electronics" category. What if you have a website about digital cameras? You simply enter "digital camera" in the keyword search box and presto! Your Amazon store is filled just with digital camera products. Monitor and get an overview of how many products are fetched/retrieved per category, per language. Preview products pulled from Amazon and delete the ones you don't want to include. Links in created pages and stores are static, which are 100 search engine friendly. Customize the formatting, look and feel of the text for each category, and colors of

your generated Amazon pages/store to make them go along with your site theme. Add, Edit, Manage banners. You can add ads/banners at the top and bottom. Full control over your banners: Track and control banner views and hits. Set maximum views, maximum clicks. For example, if you set maximum views or clicks to 1000, and the banner is displayed 1000 times, it will not be displayed to the next site visitor. Add your Google AdSense code, Niche Power Ads code or any affiliate code to the banner space. You can add your Google AdSense code to your multilingual Amazon stores and automatically, the AdSense ads will be displayed in the language of that store. Change the script name if you like. No programming skills required. SEE SALES PAGE: [buyonline.gofreeserve.com/sales/index.htm](http://buyonline.gofreeserve.com/sales/index.htm) Tags: php
