

# One Time Offer Templates Plr

[DOWNLOAD HERE](#)

Fully Customizable Web 2.0 OTO Templates If you're anything like me, you LOVE watching video on the web. Even better... you're either using video on your own website and blogs right now... or you're seriously thinking about it. All you have to do is add your products to the product boxes, and link the Buy Button to your payment processor. Then, just add all your sales copy or other content. The Buy Button price can be changed right in the html, or use an html editor like Dreamweaver or NVu. You get all the .psd files for the graphics, so if you wish to change the color scheme, you can simply change the price on the button graphic in Photoshop and then export the entire button graphic as a .jpg, instead of slicing the graphic and creating an html button like I've done. Your choice. The footer graphic can, of course be changed if you have photoshop. If you don't have photoshop, I've included a blank footer graphic labeled "footer2.jpg". Just substitute the name of that file in the code. I've also included some web 2.0 style colors you can use in the .psd files.
