electronic down tempo 10 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: Techno Details: up and coming artist amilcar flores releases his first album eleqtronika. this album is a mix of sequences and out-to-lunch guitar riffs. it contains some cool beats, for example the song "SOLO". it is a very full of energy song and it is about leaving,goind to a new place alone. On the other hand, "sangrar", which is my personal favorite song. the song talks about a soul being in a dark in a hole asking for help.
