This self produced disc sounds better than many professional recordings. The quality and time enhanced qualities give the recording a "RIP IT UP LIVE" aspect. The Bassist and Drummer are tight and the Guitars are completely PHAT 10 MP3 Songs METAL: Gothic Metal, ELECTRONIC: Industrial Details: Hey SACKBOY! Check this out: How many good bands have you heard from Albuquerque, New Mexico? Have you EVER heard of A band from Albuquerque? There's a first for everything. This band could just put this town on "the map" as far as Metal music is concerned. The line-up, as it stands, has been unchanged for nearly 5 years; which has undeniably caused a "VERY TIGHT" sound AND feel. The band itself has been around for about 10 years under the former name DARK TRUTH. A few members had changed and the music wasn't Dark Truthy anymore; therefore, a new name was chosen. The guitarists both use nothing but stacks of Mesa Boogie for amps and cabinets, P.R.S. guitars to strum on,.. expensive-yes but sound OH-so BAD ASS!! Bass boy uses Carvin Pwr amps, Ibanez basses, and a LINE 6 POD Pro, and punches thru the mix like some,..low-end..BEAST! The drummer uses a shelf-full of his grama's pots and pans, though they're mic'd well and sometimes sound like DW's. He likes people to know he uses a Pearl Powershifter pedal,though, and Zildjian cymbals. The Singer dude uses his vocal chords mostly, when he's not doin' the Bobby Brady impersonations on the mic, and he highly endorses sex with little people wearing frogskinned tights and a lampshade skirt nestled with fresh morning babysbreath, and a nice glass of vintage Brass Monkey. Take care. And come check us out if we visit your town. Thank you for you're valuable time.....LATE.....E-Mail: cell13@comcast.net____ evilwevil13@comcast____ brokenskull13@hotmail.com____ Also, the whole band very much likes to dance the Whatoosy onstage.
