Comedy/Satire. Like a cross between Alan Parsons on a horse, and John Wayne on acid. Lots of acid. Adult audiences only. May contain butt-singing. Lesbians too, but hey, who doesn't love Lesbians? Ultimately, of course, he'd like to direct. 14 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Country Pop Details: Take 2 parts Ray Stevens, 1 part Weird Al, add a small dash of Jerry Reed, saute, bake, and then microwave for several years. Remove from heat and let stand in the corner (sauce will thicken--have patience!). Now pop the finished dish into your CD player and enjoy! Funny (and usually dirty!), songs about breakups, pickups, beer, and the occasional laxative, Hog Whitman steps right of an old-fashioned Honky Tonk Jukebox and into the psyche of the unsuspecting listener. Comedy music may never be the same--and neither may you! One of America's most influential people, Radio Host Don Imus has called him "The Great" Hog Whitman. He was probably drunk when he said that. Listen for yourself and then, go figure... Note: Single downloads available from Itunes/Rhapsody, etc.
