Meditative, jazzy world music. 14 MP3 Songs WORLD: World Fusion, NEW AGE: New Age Details: Kahlil Kwame Bell has performed on over 80 recordings. He has toured extensively with Roberta Flack, Erika Badu, Sepia, Stefon Harris and two time Grammy Nominated Russell Gunn's Group Ethnomusicology. He also tours with his band "The Gift". The recordings that feature Mr. Bell, vary from Jazz to Folk, Rock to Hip Hop, Classical to World Music and Spoken Word to Spiritual. Kahlil plays over 1,000 percussion instruments and even does work on wood and clay flutes. He is a profound composer and arranger with strong concepts. He is known for leading his group with an innovative percussion instrument called the "slappaphone". It's unusual sound and shape capture audiences all over the world. When asked about the instrument Kahlil says that "it called him when he first heard it and it has become his voice, offering rhythm and melody to the listener". Gift Of Forgiveness is Kahlil's first record released as a leader and surprisingly enough not featuring his drumming as much as his composing. Kahlil says, "on many of the records I have done in the past I have taken solos that deal with my proficiency as a musician; I wanted to show more beauty in the melodies of my compositions rather than riffing on various percussion instruments".
