Roller-coaster Folk.?? 12 MP3 Songs FOLK: Folk Pop, FOLK: Power-folk Details: Roller-coaster folk!?!?

This one is a bit of a ride where a hauntingly beautiful melody will set you up for the bite of the Dobrosaurus Rex. These guys have been around enough to know that Folk has to say something and that Rock should really have it's Roll. Land and Smith are multi-instrumentalists who mix it up well but live on the strength of solid song writing. Enjoy the ride...
