A genuine blend of experimental, progressive, industrial, ambient and arabian music, creating a style often called "Manahil". 13 MP3 Songs WORLD: World Fusion, ELECTRONIC: Ambient Details: Manahil is a musical project from Quebec City that explore many ways of creating music. The band is Mathieu Fiset on keyboards and Hind Fazazi on vocals. The whole adventure started after a friendly jam session in August 2006. The two friends were often exchanging ideas and thoughts about music and naturally, they started to compose together. They quickly realized that their compositions were really unique and interresting, so they decided to record a demo. The general mood of Manahils music is dark and strongly influenced by arabian music. There is also a lot of industrial, progressive and even metal influences in the mix, creating a style often called  Manahil . During their first year of existance, Manahil worked on their debut album  Hadayane  which is a global view of Manahils mysterious and original music. The album was released during September 2007 and was well received from listeners and critics. Now the band concentrates on upcoming shows and searches for a record label to help out with the next album. Album Review : noktorn.wordpress.com/2007/10/03/manahil-hadayane/
