What message are our children receiving? As a society, we must be more intentional about WHAT we are teaching these future leaders, and HOW we are teaching these future leaders. Sweet Tart and More Than Fun are here to help! WHO IS SWEET TART? -A childrens performer -A Healthy Voice for Children -A hip hybrid of Dr. Seuss and Mr. Rogers -A trained professional with a Master's in Youth and Family Studies and a Bachelors in Music Education -A role model who is relevant to children and can engage parents MISSION VISION More Than Fun is a company created to help build strong families by Teaching Timeless Truths (morals and values) to Children and Families through creative channels. HOW IT HAPPENS To do this, More Than Fun partners with schools, churches, families and existing community organizations as a platform for sharing timeless truths. More Than Fun weaves music, movement, color and characters into each presentation. Children are engaged, energized and excited with the experiential learning style of More Than Fun. The timeless truths of each performance serve to facilitate healthy development within each child that More Than Fun touches. Touch a child, reach a family. WHAT MAKES US UNIQUE? Our Partnerships... Our goal is to support those who invest in children. Growing emotionally, physically, socially, mentally, and spiritually strong children can be challenging, exhausting and wonderful! Special performances offered by the characters of More Than Fun are appealing because they refresh parents, teachers, volunteers and staff while giving them a well-deserved break. More Than Fun recently partnered with Starbucks, District 617, to help promote

literacy and life-long learning in Littleton Public Schools. Our Characters... More Than Fun's characters are unique. They are not clowns, and they are not animation. They are REAL people who value children, parents and the family. SO WHY DRESS UP AS A CHARACTER? Because characters make the message stick! Our Dual Appeal... We believe that parents are the primary examples in their children's lives. Creating a performance that captivates both children AND parents is our primary goal. When parents catch the message their children have constant reinforcement. WHAT ARE PEOPLE SAYING ABOUT SWEET TART AND MORE THAN FUN? SCHOOLS... We loved Sweet Tart!
