alternative hip hop 5 MP3 Songs POP: California Pop, HIP HOP/RAP: Alternative Hip Hop Details: With all the sad tales of high school break ups and lost love filling the airwaves these days, Oakland's Ten\*G\*Bob has made a mission to make fun cool music again with their unique blend of infectious and danceable party music. Their journey began as "Missing Link", quickly becoming one of the hottest bands in the East Bay of northern California, selling through 2500 copies of their debut album "Entourage Garage" and making a name for themselves at clubs and parties throughout the area. After a change in their line-up, the band made the move to Downtown Los Angeles with the sole purpose of making music their career, and in 2001 crafted their hip-hop crossover demo, "ClownCore", which fell into the hands of producer Mike Trujillo. Having worked with a variety of artists ranging from Tom Waits to Rancid(A&R), and producing albums for various bands on Epitaph Records (Osler, Choking Victim, etc.), Trujillo was immediately impressed by Ten\*G\*Bob's original sound, and quickly got them in the studio to record what has become the band's latest 5 song EP, "All the Way".
