Five diff. creative styles get together to bring a hip/hop, rap style that will make you forget you have a fast forward button. 12 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Hip Hop Details: underground album of the year!!!! DOES GOOD HIP-HOP STILL EXIST????? That is the question. With so many new artist trying to "make it big " in the music industry a lot of times quality is often overlooked. Of coarse you want to get paid for your talent because after all being a musician is a "job", but how about keeping it real. Don't you hate it when you see some no talent mother#\$&er on TV acting like he's the best thing since Tupac but someone you know who is way better is still doing local clubs and not getting the respect he or she deserves. Of coarse you do. With that in mind who do you think would give you better music an artist who gets paid 1,000,000 dollars because of his name or an artist who probably won't get paid at all but still spends hours after hours in the studio just to do a song for an event going on in his town??? Not to say that million-dollar artist don't make good records but they are also human beings and I don't know about you but if I don't have to work hard I probably won't. If working hard gets you 1,000,000 dollars then these guys deserve two million. You know exactly who I'm talking about, 4-3(foe three). After their first big stage performance at the V.I.P. music awards in Miami in 2001, these 5 guys have been working real hard to keep their name in people's heads. After getting a decent response from livin my life (underground) which was an eight song LP relesead July 2002, these guys were determined to come out stronger and more professional next time around. Well guess what, the time is here and the moment is now!!! Let me take some time to introduce the future of hip-hop/rap to you. The members of 4-3 are Deadline, Hen-dogg, Izzy, Loc, and Poppynap. Each one of these artists brings a different dish to the table. You might get steak and potatoes from one then another might turn around and give you chicken and biscuits so you never know what you will get but whatever it is you will love it. These guys are also

very versatile on almost any track you give them but they prefer tracks from their producer Poppynap. An artist and producer Poppynap has the music that will have you breakin' your neck. After listening to some of his beats all I have to say is Dre and Timberland make room for one more, "BELIEVE THAT!!!!!" I could go on and on about these guys but this is an article not a book. So if you really want to get to know these guys "BUY THIS ALBUM", be one of the few that can actually say "I knew them before they blew up" J. It's hard to believe these guys are still independent.
