Their true talents were put to the test when they were asked to create the Girl Group BITTAR SWEET by Celeste - Monijae, choreographer, dancer and former Co-Host of The World Famous Apollo Theatre's Amateur Night "Live". "My inspiration was really to take a group of talented female singers and showcase their vocal ability and their individuality - more like the Male Groups - where everyone plays their part, with high, low and in between voices and everyone dances and motivates and pleases their audience, instead of cupy dolls who just look lovely on stage." BITTAR SWEEET has gone on to perform all over New York City and have just come from underground - recording their debut LP/CD "JUST A TASTE". BITTAR SWEET puts on a great show and they make you feel like they are in your living room and you are just chillin'. BITTAR SWEET is stunning on stage.
