Lounge music for transcendental politics. 15 MP3 Songs ELECTRONIC: Trip Hop, ELECTRONIC: Experimental Details: If you feel that the pursuit of power and profit is having a negative effect on the soul of humanity you may consider yourself a member. There's nothing hidden about us. Ultimately we are a musical project but our aims are wider than creating melodious, alternative and sometimes provocative soundscapes. We hope you will find a space within our music that you can resonate with, some are subtle and some a bit more challenging, we like to cause a reaction sometimes. The CD - Magic Sunshine has 15 tracks and is just under 55 minutes long, it is capable of taking you on a journey. Let yourself float along in the expressive and funky beats, harmonies, melodies occasionally jerked by soulful dissonance. The less adventurous will at first find the arrangements 'unfamiliar' and feel repelled but experience shows that the music will draw you in and you will find more things you like the more you listen. Sometimes ways that are different and unfamiliar are the ones to embrace.
