Electronic rock and new age that defies description. 12 MP3 Songs ELECTRONIC: Experimental, NEW AGE: Solo Instrumental Show all album songs: Muzik Elektronen Songs Details: David is originally from the Central New York area and is currently residing in the Southern Tier of NY State. For the past 17 years, Dave has been writing electronic music and experimenting with new sounds and concepts. In 1980, David tragically lost 4 fingers on his right hand in an industrial accident. Many keyboard players would have considered this to be the end of their careers, but David's continued determination to create music and deep desire to write and perform prevailed. Dave's philosophy is that simple is best and he proves this by applying a simple approach to the songs he writes. Lavish orchestration and integral strength does not need to be complex. Pure sound plus pure power, combined with a sensational stage presentation, showcases the music as well as the musician. Combining these concepts into the realm of magick and the mystical atmosphere of New Age Electronic Rock makes the music a unique experience, where musical reality and fantasy are one. Dave is currently keyboardist with the progressive-rock / world fusion band Anubis Spire.
