Introducing a singer, songwriter and multi-instrumentalist with a soulful sound that is unmistakably British. From the urban playgrounds of Brixton, South London comes Del. Like so many singers Del. grew up singing in the church. His musical tendencies were encouraged by friends and family and over time Del. taught himself to play several instruments including Guitar and Keyboards. In the age of the bedroom producer and the home studio, Del. took to recording the songs he wrote and distributing them at performances around London and the UK. This led to Kevin Lyttle, of Turn Me On fame, recording one of these songs, So High, for his debut album. Citing influences such as Prince, Omar, DAngelo and The Red Hot Chili Peppers, Del. has crafted a beautifully layered sound that invokes the soul singers of yesteryear while remaining firmly rooted in the new millennium. The time has come for a new UK Soul Star and his name is Del.
