Starlight Beats and Breaks recording artist Karina Nistal has been rapidly gaining popularity as well as a legion of fans throughout the South, Mid-West and the UK over the past several months with her sexy, unique and bouncy electro-Latin style, conscious message and warm and super energetic stage presence. Cuban-Mexican American born and growing up around local hip hop crews in her hometown of Houston, Texas, Karina developed a sincere positive urban mentality that stands out in her performances. Currently on tour with the kings of Dancehall and Latin-break throw-downs, The Rebel Crew Sound System in support of her brand new album entitled, Karina Nistal shows much promise for the future of Latin and English dance music and definitely adds another hype twist to the entire global urban music scene as a whole. BIO: Karina Nistal is known to align herself with diverse and solid collaborations to showcase her extensive range. Her work consists of emotive jazz vocals on downtempo tracks, rapping in Spanish for the worldly sounds of reggaeton, or fusing soulful Latin vocals with lively dance music. But most significantly, it is a vibrant charisma that carries over her poetic musings in either English or Spanish and her matter of fact delivery of self-assured flirtatious rhymes.
