Details: Lady L sings with a free heart, writes with an old soul, plays her guitar with a lover's touch. Born and raised in the islands, the soulstress brings an acoustic soul/R&B sound that puts the lime in your coconut the sweet in your tea. Years of hula dancing, "breaking" to funk beats, and grooving to early 90's R&B have fine tuned her musical ear. She has a music foundation cultivated not by formal training in voice or guitar, but rather, by years of music appreciation and respect. With that experience, her live acoustic sets have already turned the heads of poets, emcees, dj's, visual artists, and dancers from Hawaii to the UK and continues to win the hearts of musicians and music aficionados both.Music is a feeling, experience it....
