Details: Mike Surratt presents his newest release, Polkanceptions. Polkanceptions is a natural progression of Mike Surratts critically acclaimed, 2006 CD The Polka Element. As with The Polka Element, all tracks on Polkanceptions were written, produced and performed by Surratt using only an Alesis QS6.2 keyboard, Hohner accordion, and his voice. In his follow up effort of more, all-original, polka material, Surratt provides listeners with new and unusual combinations for the quintessential American Polka roots music. Once again, his efforts delight, confuse and amaze audiences.
