Details: Christian Michael Filardo is a young 17 year old boy hailing from Sedona,AZ. He creates silly and goofy songs that result in a feeling of nostalgia when listened to. All things he creates are recorded in the lonesome basement of his house. When asked about the name Panda Steps In Chocolate Filardo refers to the great melt back in 1994, the story goes something like this. Once upon a time in Springfield,IL there was a large heat wave, all the local department stores air conditioners went on the fritz. A crazy man had been dancing around town all day in a panda suit, when he began to walk by a department store. A rich brown ooze leaked from the store, he went to examine it, where he then stepped in it slipped and fell on his face. Filardos music style has been compared to the unicorns, xiu xiu, the boy least likely to, and black moth super rainbow. Tags: pop
