

## Mp3 Cat Scientists - Felinology

[DOWNLOAD HERE](#)

The cat scientists are a progressive electronic based experimental duo from the year 2020, who specialize in tantalizing the ears while filling a need for those individuals who want original music to be played in their shops, bars, clubs, homes, and cars. 26 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Pop Crossover Details: The Cat Scientists are an electronically based duo from the year 2020. The Cat Scientists create experimental music to determine if futuristic sound frequencies can prevent the catastrophic tilt of the Earth's axis in the year 2012. Their experiment incorporates electronic sounds, acoustic instruments, vocals, and other ambient vibrations. The Cat Scientist's laboratory is located at Latitude 29.7379, Longitude -95.236 (Houston, Texas). Alongside their goal of preventing the future tilt of the Earth's axis, the Cat Scientists are striving towards creating music that conducts The Universal Resonance. The Cat Scientists are Josh Monroe, and Tyler James. Both researchers utilize sequencers, keyboards, drum machines, guitars, drums, basses, percussion, vocoders, programming, and voices. The Cat Scientists produce, record, mix, and master all of the music that they create. The Cat Scientists control for all variables concerning their music in order to ensure a valid and reliable experiment.
